Using Kaltura Video Capture to Engage Learners

What is Kaltura Video Capture?

KALTURA

- A tool that is integrated into MyMedia on SLATE
- A tool that allows you to create interactive videos and to facilitate online learning for your learners

Learn more about Kaltura at: https://corp.kaltura.com/products/education/personal-video-capture/

How can I use it to facilitate learning?

By taking your learning materials and capturing them in video form, with the addition either your audio or video input, you can bring learners together, engaging them and connecting them to your learning outcomes.

You record your video, upload it to your course and then learners can connect at their own pace.

Get Started

1 **Launch the Kaltura Capture Application**

2 **Create a Recording**

3 **Complete and Upload your Recording to My Media**

You can find directions on how to complete the first 3 steps at: https://ltsa.sheridancollege.ca/learning-technology-portal/kaltura-capture/

4 **Upload your Recording to your Course**

You can find instructions on how to upload your recording to your course at: https://ltsa.sheridancollege.ca/learning-technology-portal/kaltura/

Creating Accessibility and Interactivity

Closed Captioning CC

Learn how to edit your closed captioning at: https://ltsa.sheridancollege.ca/learning-technology-portal/video-caption-kaltura/

Student Assignments

Learn how your student can create and upload their own videos for assignments: https://ltsa.sheridancollege.ca/learning-technology-portal/insert-course-media-via-kaltura-student/

Adding a Quiz

You can add a quiz to your Kaltura video to create interactivity. You can find instruction on how to do this at: https://knowledge.kaltura.com/help/video-quiz-guide-for-creating-quizzes
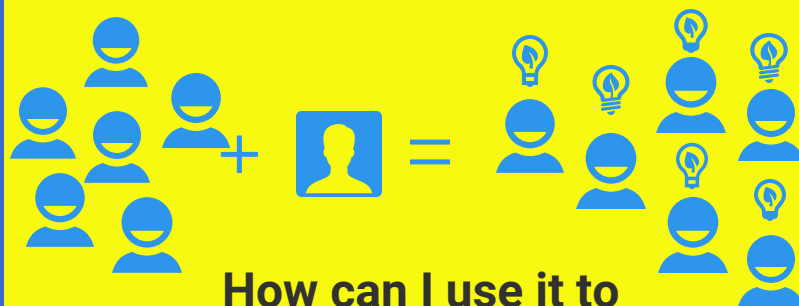

Need Support?
